

DGUV 112-191

albatros-work.com

 **albatros**[®]
MADE TO PROTECT

The ALBATROS collection offers a wide range of models certified according to DGUV 112-191 for the most frequently required orthopedic modifications and compliant with DIN EN ISO 20345.

These safety shoes can be easily adapted to the wearer's individual needs by an authorized orthopaedic shoemaker or medical supply store – without compromising their protective functionality.

The orthopaedic components for the modifications are available from our partners:

Matthias Hartmann
Orthopädie + Sport GmbH
 Schelde-Lahn-Straße 20

More information about ALBATROS with DGUV 112-191 certification and a detailed description of the models can be found on our website www.albatros-work.com.

1 CUSHIONED INSOLE

- high electrical conductivity, ESD suitable
- high wearing comfort
- abrasion resistant

2 SHOCK ABSORBER

- reduces impact forces
- permanently elastic
- pressure-distributing

3 INSERT ELEMENT

- high electrical conductivity
- pressure distributing
